

TUBE SEALER

Compact table top impulse sealer equipped with bi-active sealing bars; a moving thermo controlled impulse seal bar and a fixed heat seal bar (code seal prepared).

Advantages of the machine

- Compact model
- Front loading machine
- Different tube length possible (for each different cap size a new tube holder is necessary)
- Preparation of code is integrated in the machine (for 4 or 6 tubes, different heat seal bar). Max. 10 characters possible per tube
- 9 storage programs
- Automatic adjustment of sealing pressure
- Electronic control of seal and cool time
- Option to add characters for code seal (max. 10 characters)

Model	Tube 50
Dimensions (LxWxH)	640x350x500 mm
Power supply	230V-1Ph-50/60 Hz
Consumption	750 W
Seal width	4 mm flat
Capacity	4-6 tubes/cyclus
Tube ø	20-50 mm
Tube length	70 mm- 230 mm
Tube holder for 6 tubes	cap ø 20-40 mm (sealing max. 65 mm per tube)
Tube holder for 4 tubes	cap ø 40-50 mm
Tube material	PE-PP/AL-PE
